

# Questions: Permit Pricing Survey

- Some information that appeared to be an anomaly was investigated. However, due to assumptions which had to be made there may be some discrepancies. Please contact Ken Kimball at [kkimball@tamu.edu](mailto:kkimball@tamu.edu) with any suggested corrections, changes or additional information.

# Assumptions

- This survey asked for annual permit pricing. Therefore when respondents did not provide this, the annual price was estimated where possible.
- For example:
  - If a monthly price was provided or a price for some number of months, the price was divided by months times 12.
  - If provided by term, it was assumed there are 4 terms: Fall, Spring, Summer I & Summer II.
  - If by semester, it was assumed there are 3 semesters: Fall, Spring, Summer.
  - Those showing either zero or NA were not included in summation graphs.

# Assumptions cont.

- It is assumed that if a permit is not a license to hunt then a space is guaranteed at all times in the lot or lots assigned. If the respondent indicated this was not the case for questions other than #5, the service was considered NA or not available.
- Reserved numbered spaces are assumed assigned to one person 24/7. If respondents indicated this was not the case on question 6 & 13, these were considered NA or not available.

# Definitions

- **Numbered Space**
  - a single space marked with a number and reserved for a single permit 24/7
- **Unnumbered Space**
  - a space which can be used by any customer allowed to park in that lot/garage (NOT a hunting license). All permit prices should be based on a 12 month period
- **Hunting License**
  - a permit for a lot with the chance that you could show up and the lot be full
