

Set Up Department ParkMobile Account

ParkMobile is another way to pay for hourly parking. You may create and/or access accounts online at <https://parkmobile.io/> or by downloading the mobile app using:

Departments may choose to set up a ParkMobile account to pay for guest parking online. Guest license plate information will be required to start the parking session.

To begin your session, log into your online account and select “Start parking” from the left toolbar. Please note the “Visitor” section is only available in web form. The ParkMobile app information may be supplied to frequent visitors to the area or those you wish to have pay on their own for parking.

The screenshot shows the ParkMobile website interface. At the top left is the Parkmobile logo with the tagline "A Smarter Way to Park". To the right, it says "PERSONAL PAGES" and "North America". Below the logo is a navigation menu with sections: "Home", "Direct parking" (containing "Start parking", "Extend Parking", "End parking"), "Management" (containing "My account", "Users", "Vehicles", "Alerts & Messages", "Payment method", "Membership type", "Promotions"), "Overview" (containing "Monthly Statements", "Parking History", "Payment History"), and "Information" (containing "Help"). A red arrow points to the "Start parking" link. At the bottom of the menu is a "LOG OUT" button. The main content area shows "Logged on as:" followed by a redacted name. Below that is a promotional banner for "PAYING FOR PARKING JUST GOT BETTER" with the text "Parkmobile provides you with a simpler method of paying for parking: The Parkmobile Wallet" and an image of a smartphone displaying the app. Below the banner, there is a link "Click here to see where the Parkmobile Wallet is accepted." and a "Sign Up for the Parkmobile Wallet." button.

User Visitor

The Visitor Parking feature allows you to pay for a vehicle without adding the license plate number to your account for repeated use. This functionality is only available here in the Personal Pages and cannot be managed via any other channel (app or phone).

Information

- Help

Sometimes meetings or events run longer than originally planned. If that becomes the case, you may extend the parking session by logging in and choosing “Extend Parking” and follow the steps to extend the time needed. Please note that all payments are final and you should only choose to extend a session if you find it to be necessary.
