Bryan/College Station
Roadway Project Updates

Transportation Services Advisory Commission
May 2023
Debbie Albert  d-albert@tti.tamu.edu
Project Locations

• Highlight the projects that affect Transportation Services operations
• Updates on regionally significant projects
• We're like a big city suburb

Get in the habit of checking your traffic app before you start your trip!
FM 2818 (aka 20-hate-18)

• In Phase 3 of 4
• Expect to move to Phase 4 (median work) in Fall 2023
• Expected completion: early 2024
FM 2818 – Wellborn Rd to Stotzer Pkwy (2021 to 2023)
6-Lanes Divided Replacing the 5-Lane “Chicken Lane” Roadway

New northbound lanes.

Old northbound lanes. Now carrying southbound traffic.

Old southbound lanes.

Future southbound lanes.
Let's Take a Closer Look at the Super Street Intersection – 2818 Movements
Let's Take a Closer Look at the Super Street Intersection – Intersecting Street Movements
FM 2818
Remaining Work

• Drainage structures
• Paving southbound lanes
• Jones Butler bridge and new roadway segment under bridge
• West leg of Holleman
• West leg of Bush
• Median U-turns and crossovers
• Signals
Texas Ave Safety and Mobility Enhancements

• Phase 1 – Under construction
  • Old Hearn Road to 15th Street
  • Intersection improvements

• Phase 2A – Under construction
  • Raised medians

• Phase 2B – Design phase
  • Shared use paths
  • Turn around improvements – “Loons”
  • Let date moved to August 2025
Phase 1: Texas Ave & SH 21 Intersection Reconstruction

• 2 of 4 corners reconstructed
• Working on the northwest corner
• Expect completion in 2024
Phase 2: Median Installation

- Medians installed starting at University and working north
- TxDOT working with property owners to make adjustments as needed
- Expect completion in 2023
SH 30 (Harvey Road) Raised Medians

- Started in Fall ’22 – median installation complete
- Mill and overlay completion – end of May 2023
Lincoln Ave Rehabilitation Project (2023-24)

- Reconstruct street as 2 lane concrete roadway
- Add roundabout at Nimitz St and Munson Ave
- Construction starts Summer 2023 following ATMOS gas line work
South College Ave. Reconstruction & FM 1179 (E Villa Maria Rd. and Briarcrest Drive)

Construction begins early 2023 lasting 18 months – reconstruct to one lane in each direction with center median and ped/bike facilities.

Median installation. Working on utility relocations.
Wellborn/Deacon Intersection Improvements

• New intersection raised to the railroad grade (similar to Holleman/Wellborn).
• Will close the Cain grade crossing when Deacon intersection is open
• Southbound lanes complete
• Old Wellborn part of intersection underway
• Finishing northbound lanes
• Signal poles in place
• Expect completion in Fall 2023
Wellborn/Deacon Intersection Improvements (2021-2023)
Rock Prairie Rd

- Roadway work complete
- UPRR needs to finalize the signal work
- Close out expected Fall 2023
Rock Prairie Road – Holleman to Wellborn (2021-2023)

BEFORE

AFTER
Quiet Zones

[Map showing various locations and project markers]
Texas A&M Quiet Zone Process

1. Issue Notice of Intent (NOI)
2. NOI 60-day comment period
3. Diagnostic Inspection #1

Phase 1

1. Issue Public Authority Application (PAA)
2. Construction at Quiet Zone intersections begins

Phase 2

1. FRA reviews PAA
2. FRA approves PAA
3. Updated traffic counts at each intersection are collected

Phase 3

1. Issue Notice of Establishment (NOE)
2. Diagnostic Inspection #2
3. UPRR internal processes
4. Quiet Zone established

TAMU is here in the process
Quiet Zones – TAMU (2021-2024)

• Awaiting signal preemption design estimates
• Working on interlocal agency agreements for signal operations
Quiet Zones – Bryan (2022 - 2024)

- Phase 1 – 10 downtown intersections
- Have approval from both track subdivisions
- UP needs to make track improvements
- Groesbeck crossing signal work will follow UP work
Quiet Zones – College Station (ongoing)

- Greens Prairie – existing
- Holleman, Deacon, Rock Prairie, and Capstone designed or under construction
- Royder/South Dowling – future project
SH 6 Central BCS Expansion

- Design nearing completion
- Project letting in Summer 2024
- Requesting additional funds to complete the project
- Expect 3-year construction schedule
SH 6 Central BCS Expansion Project

• **Phase 1**
  - Widen to 6 main lanes
  - Frontage road improvements
  - Auxiliary lanes – make continuous between ramps
  - New collector-distributor lanes at selected locations
  - Texas Avenue interchange

• **Phase 2**
  - Improve major intersections
  - Pedestrian and bicycle accommodations
SH 6 Collector – Distributor Roadways

- Sebesta Rd.
- Freeway mainlanes
- Collector-Distributor roads
- Frontage roads
- Scott & White
- Rock Prairie Rd.
- Texas Ave.
Bush/Wellborn

• 3 Level Interchange
• Funded in FY 2026
• $103M for construction
• TxDOT working on 30% design and coordinating with utilities.
• Railroad coordination also underway
Bush/Wellborn – View from Kyle Field

Wellborn Thru Lanes (same height as existing railroad)

Pumpstation

McDonald's

Blue Bell Park

Bicycle/Pedestrian Path (About 15 feet below-ground)

George Bush/Wellborn Intersection (About 35 feet below-ground)

Aggieland Outfitters
Jones Butler Roundabouts

• Holleman Dr West and Jones Butler
  ▪ Construction pending completion of other projects in the area.

• Holleman Dr South and North Dowling Rd
  ▪ Construction will follow completion of FM 2818 project lasting approx. 18 months.
2 New Roundabouts on Jones Butler

- Holleman West
- Holleman South
Other College Station Projects

• Greens Prairie Widening – near Castlegate/Castlegate II
  ▪ Anticipate completion Summer 2023 – upgrading roadway to 2 lanes in each direction with a center median/left turn lanes

• George Bush Buffer Separated Bike Lanes – Wellborn Rd to Texas Ave
  ▪ Starting design – will add barrier to separate bike lanes

• FM 2154 (Wellborn Road) Widening – south of SH 40
  ▪ Starting design – upgrading roadway to 2 lanes in each direction with a center median/left turn lanes
Other Bryan Projects

• 29th Street Signals
  • Work ongoing
  • Broadmoor complete
  • Carter Creek anticipated completion in May

• William J. Bryan Improvements – near Sue Haswell Park
  • Construction underway, anticipate completion in 2025.
  • Improvements include: shared use path, sidewalk, Coulter Drive signals, HAWK beacons, and roundabouts
